

NEWS FROM ALL THE WORLD TOLD BRIEFLY FOR BUSY READERS

FISHERMEN WILL FIGHT
CANADIAN CUTTERSSmuggle Cannon Aboard Tugs to
Defend Craft.

DUNKIRK, N. Y., Aug. 14.—The action of the Canadian revenue cutter Petrel in firing upon and nearly sinking the fishing tug Silver Spray, from Erie, has aroused in the Dunkirk fishermen a desire to retaliate. Small cannon were smuggled aboard several of the tugs yesterday, it is said, and several captains have privately expressed their readiness, should the Petrel repeat its warlike actions, to reply in kind.

The Petrel's captain, the fishermen declare, has not been careful to stay on his own side of the line, and has become so arrogant that they dare not approach within three miles of the boundary. The Silver Spray incident has brought the twenty captains fishing from this port to a decision to defend themselves.

STREAMS OF LAVA
FLOW FROM VESUVIUS

NAPLES, Aug. 14.—The observatory of Vesuvius states that the explosions, though they are diminishing in force, have led to new fissures in the cone of the crater. Through these lava is flowing abundantly in two streams, the smaller one moving to the southeast and the other and more important one flowing toward the north. As at this side the mountain is steep the stream of lava had reached nearly to the bottom of the cone.

LAND BILL AWAITS
THE ROYAL ASSENT

LONDON, Aug. 14.—The house of lords has agreed to the Irish land bill in the form finally approved by the house of commons. The latter house Wednesday accepted all the amendments, save two unimportant ones, added to the bill by the lords. The measure now only awaits the royal assent to become law.

ITEMS OF INTEREST
FROM NEARBY STATES

MARYLAND.

The decision rendered by the circuit court of Anne Arundel county in the Annapolis Emergency Hospital case, dissolving the temporary injunction, was a victory for the board of managers for the hospital in their contention that pending the appointment of a new superintendent the hospital will remain under the control of the board.

On the invitation of the Hon. William H. Jackson, about twenty or more Republicans from the different districts of Wisconsin county met at the office of the Representative in South Salisbury yesterday and made the arrangements for the primaries to be held on Saturday next. It is said the ticket to be nominated next Tuesday was agreed upon and the convention will, in all probability, be a tame affair.

Frank J. Conway, a prominent young man of Cumberland, yesterday afternoon went to Westport, and meeting his wife, Gertrude Conway, in front of the Lutheran Church with another man, shot her through the lung. Death was instantaneous. Conway fled.

Last night Charles Fesmeyer, of Centerville, died suddenly on board the steamer on his way home from Atlantic City. He was one of the fifty or more excursionists who went from Centerville on an excursion to Atlantic City by way of the Queen Anne's Railroad.

The Liberty Hunting and Fishing Club, of Pittsburg, Pa., sixty-five strong, arrived in Cambridge on special cars for a two weeks' outing, and went into camp on the Robinson place, three miles from Cambridge, at the junction of Jenkins Creek and the Choptank River. It is the fifteenth outing of the club.

Canal Boat No. 28, of the Consolidation Coal Company, collided with the lower lock gate at the Williamsport lock last evening in the Chesapeake and Ohio Canal. The bow of the boat was stove in and the boat sunk.

Fully 12,000 persons attended the Pocomoke City Fair yesterday. The steamer Highland made two trips from Snow Hill and arrived at the wharf each time packed to its utmost capacity. The Hon. Edwin Warfield was among the visitors and received a big ovation when he came on the fair grounds in the afternoon.

Mrs. T. H. Morris Bramble, wife of T. H. M. Bramble, of Fairlee, Kent county, died yesterday morning at her home of dysentery. Prof. L. J. Smyth, Richard Smyth and William G. Smyth are her brothers.

The negroes held their fortieth annual emancipation celebration in Frederick yesterday. At the Fair Grounds addresses were made by a number of leaders of the negro population of this city and by several national negro leaders.

A tournament held at My Lord's Gift, near Queenstown, Wednesday afternoon, under the auspices of St. Peter's Catholic Church, was attended by 1,000 persons. Fourteen knights contested. W. J. Connolly won first prize, \$10, and crowned Miss Shortall queen.

CASHIER BLAMES BANK
FOR LETTING HIM STEAL

DULUTH, Aug. 14.—The sensation of the hour is the wrecking of the Commercial Banking Company of this city, through the defalcation of E. E. Johnson, the youthful cashier of the institution. The bank did not open its doors yesterday morning. Johnson is in jail charged with stealing \$48,500. Johnson admits the shortage, but says that while he is to blame for taking the money, which he lost in speculation in stocks, the bank was grossly culpable in not earlier discovering that he was stealing.

CONNECTICUT JUDGE
ARRESTS A THIEF

DERBY, Conn., Aug. 14.—When Judge George B. Clark, of the city court, learned yesterday morning that coal belonging to him had been sold by Capt. Robert Kresge, of the large which brought it, and that Kresge had fled toward New York, he jumped into his automobile and started at a law-breaking pace in pursuit. After a fifteen-mile chase he overtook the man in the suburbs of Bridgeport and, pointing a revolver at him with the only hand he has, threatened to shoot unless he halted. The man obeyed and was arrested.

IMPERILED HIS LIFE
TO SAVE BOY'S BODY

LEWISTOWN, Pa., Aug. 14.—A father imperiled his life here last night to save the body of his dead child for the grave. The Smith home was burning and the flames had enveloped the little coffin in the parlor when James Smith learned of the peril that threatened both the living and the dead. He warned others in the house to fly to a place of safety and rushed himself into the death chamber. Regardless of the fire, which had taken hold of the varnished sides of the coffin, he picked the little casket up and ran with it to the home of a neighbor.

BIG BRITISH FLEETS
IN ASHAM BATTLE

LONDON, Aug. 13.—The umpires have not yet given a decision in the case of the naval maneuvers which commenced August 7. Admiral Domville, in command of the Mediterranean fleet, failed to prevent a junction at sea of the two home squadrons, one of which sailed from Berehaven, Ireland, commanded by Admiral Wilson, and the other from Madeira, under Lord Charles Beresford.

VETERANS CLOSING IN
ON SAN FRANCISCOG. A. R. Arrivals Represent Twenty-
Eight States and Territories.

SAN FRANCISCO, Aug. 14.—Several hundred members of the G. A. R. have been added to the advance guard already in the city awaiting the opening, next Monday, of the thirty-seventh national encampment. Lists at the bureau of registration and information show that they came from twenty-eight States and Territories. Accompanying them were probably three times as many tourists.

The total number of such passengers traveling through Ogden westward up to date is reported by the railroad officials at 4,000. Yesterday the first special carrying exclusively Grand Army tourists arrived. It came from Allegheny City, Pa., and brought the Abe Patterson Post, with about 250 people in the party. The parade of veterans on Wednesday will be the most imposing ever seen in this city. It will be confined to those who bore arms for the Union in the civil war.

PLOTTED TO MURDER
PRESIDENT WOS Y GILL

PARIS, Aug. 14.—Dispatches from Santo Domingo say that a plot to murder General Alejandro Wos y Gil, the President, has been discovered and that there have been many arrests. President Wos y Gil overthrew the former President, General Horacio Vasquez, at the time of the revolution last spring, and proclaimed himself President, being subsequently elected. His election was proclaimed by congress July 22.

TEN HUNDRED DEER
WILL BE LIBERATED

STROUDSBURG, Pa., Aug. 14.—Ten hundred deer will be liberated from Buckwood Park, near Shawnee, at an early date, and farmers who live in the vicinity fear that the animals will destroy their grain, vegetables, and shrubbery. C. C. Worthington, the millionaire owner of the park, will liberate the herd because they have denuded the park of everything which is palatable to a deer. If the fences are kept up, the gamekeeper says, the animals will starve.

NEWS OF RAILROADS
AND OF RAILROAD MEN

WASHINGTON VISITORS.

W. A. Cox, the immigration agent of the Chicago and Northwestern, and Frank Irish, the general agent of the line, with headquarters in Philadelphia, are in the city. They are soon to depart for the Northwest with a carload of immigrants. J. T. Hendricks, the traveling passenger agent of the Union Pacific, is also in the city.

COLONEL HEGE RETURNS.

Col. S. B. Hege, division passenger agent of the Baltimore and Ohio, who has been North on business, returned to the city last night.

GREAT EXCURSION.

The first train of one of the biggest excursions ever brought through Washington arrived in the city this morning over the Chesapeake and Ohio Railroad from Cincinnati and the West. There are ten of these trains made up of twelve cars each. The excursionists are on their way to Atlantic City, where they are to remain a couple of days. Assistant General Passenger Agent Bronson has charge of the movement. The people who arrived this morning spent three hours in the city. The other nine sections of the excursion are to be coming into the city all day.

READING CONTROL.

The fight for the control of the Reading goes on merrily. The stock was the center of activity on the floors of all the exchanges in the country yesterday. Three hundred thousand shares were sold in New York and Philadelphia.

The fact that Kuhn, Loeb & Co., Speyer & Co., and J. P. Morgan & Co., all friendly to the Vanderbilt-Cassatt interest, were the chief buyers of Reading strengthens the plausible theory that the Pennsylvania and Lake Shore, controlling about 40 per cent of all the Reading issue, went into the open market and bought the balance of common stock to give them absolute control of the property.

In this connection there is some interest in the report that James H. Keene, who lost upward of \$1,500,000 in the crash of Talbot J. Taylor & Co., made the shorts scramble for the blocks of Reading they needed to cover. It is known that Mr. Keene held a big block of Reading throughout the recent slump and that he, more than any other person, profited by the great boom in Reading.

WALL STREET TALK.

Wall Street heard many absurd rumors in explanation of the rise, as, for example, that the Delaware and Hudson and the Delaware, Lackawanna and Western would guarantee four per cent dividends on the common stock. This was later varied by saying that the second preferred would be retired and the common placed on a dividend basis by the new but unnamed controlling interest.

This yarn was never seriously considered, nor was the rumor that the Wabash proposed to enter New York via the Reading system, thus giving the Rockefeller-Gould interest a direct transcontinental route.

Men usually well informed as to the concerns of the Reading system are firm in their belief that the financial control of the property is now vested in the Pennsylvania Railroad and Lake Shore and that much of the very large sum of ready money recently acquired by the Pennsylvania was used in financing the deal, which was put through for the chief purpose of dominating the output and transportation of anthracite coal.

These men believe that the shares controlling the Reading will be allotted pro rata among the coal roads, which now own the majority interest in the Lehigh Valley.

ADDITIONAL SUSPECTS
IN CANTRELL CASE

INDIANAPOLIS, Ind., Aug. 14.—Special officers sent to Franklin, Ind., to follow the clue in the wholesale murder cases exposed by the Cantrell-Martin statements, discovered that, following the murder of Johnson, Cantrell and Buckner went to Franklin the day after the crime and, remaining five days, squandered over \$200. The money was obtained from Johnson. Captain of Detectives Gerber and other detectives found William McElroy, sr. He is a cousin of the William McElroy, jr., and both are implicated by the Cantrell-Martin confession and the corroborative evidence that the police have gathered.

PANAMA GOVERNMENT
SUPPRESSES THE NEWS

PANAMA, Aug. 14.—The native government does not allow news relative to the Panama canal treaty to be sent by telegraph. United States Vice Consul Ehrman received a dispatch from Bogota asking confirmation of the report of Pope Leo's death. It is presumed that the message was allowed to pass out of courtesy to the church, as the censorship of messages to Bogota has not been abolished.

FRENCH PREMIER
SPEAKS AT FUNERALS

PARIS, Aug. 14.—An imposing public funeral was held yesterday of nineteen victims of the Metropolitan Railroad tunnel catastrophe whose bodies were unclaimed. The bodies were removed from the morgue to the prefecture, a part of which was transformed into a mortuary chapel. M. Combes, the premier, delivered a short address, condoling with the relatives of the victims and promising measures of relief for the families of the victims, while the president of the municipality spoke of the universal sympathy displayed throughout the world.

CANFIELD SATISFIED
WITH SARATOGA CLUB

SARATOGA, Aug. 14.—All doubt as to Richard Canfield's intentions about the Saratoga Club were set at rest yesterday, when he said: "I have no intention of leaving Saratoga, as I like the place and always have liked it." This statement disposed of the rumor heard so often this summer that the proprietor of the Saratoga Club would either sell his property here, close it or go abroad to manage a new Monte Carlo.

DUPES LENT MILLIONS
TO HUMBERT FAMILYProvincial Witnesses Testify Against
Paris Swindlers.

PARIS, Aug. 14.—The Humbert trial was continued yesterday. Provincial creditors of the Humbert family testified to loans of many millions of francs. Their statements showed their credulity regarding Mme. Therese's story of the Crawford inheritance.

Among the witnesses was a banker named Schotsmans, whose brother was mysteriously assassinated during the time of the Hubert complications. Mme. Therese dramatically asked Schotsmans to exonerate her brother, Romain Daurignac, from the suspicion of complicity in his brother's death. The witness answered that his brother did not know the Humberts.

Mme. Therese thereupon made a declaratory statement, saying that the mass of falsehoods would disappear in a few hours, when her disclosures were made.

BULLET-PROOF VEST
TESTED IN CHICAGO

CHICAGO, Aug. 14.—In the squad room of the Desplains Street Police Station Wednesday a policeman drew his revolver from his hip pocket, aimed at a man standing at the end of the room and fired. The man did not drop dead but turned a smiling face at his adversary who then fired three more shots in rapid succession. A bullet-proof vest invented by Casimir Ziegler stopped the leaden missiles. The vest is guaranteed to stop a forty-four caliber bullet at twenty paces.

FIVE PERSONS KILLED
IN MENDOZA EARTHQUAKE

BUENOS AYRES, via Galveston, Tex., Aug. 14.—Late reports from Mendoza say that the earthquake Wednesday night was severe. Besides the five reported killed many were injured. These are being cared for at the hospitals. The main portion of the town suffered little, comparatively, the houses destroyed being located in a quarter called Pueblo Viejo. All the inhabitants of the town spent the night in the open streets, fearing a repetition of the earthquake.

NEWS FROM BOYDS.

BOYDS, Md., Aug. 14.—A large Sunday school picnic was held yesterday in Pearce's woods, three miles from Boyds, near the Shiloh Methodist Protestant Church. Sunday schools from the Montgomery circuit of Methodist Protestant churches of that circuit participated.

In spite of threatening rain, at least 500 persons were present, and were entertained by the addresses of the Revs. Benjamin and Franklin Bryan, Wright and Kindlay; recitations and songs by children, and excellent music by the Kings Valley Band. Refreshments were served to all.

Isaac N. Shipley, for sixty years a resident of this county, near Boyds, and who moved to Bel Air, Harford county, six years ago, died there recently of spinal troubles, from which he had been a sufferer for several months. Mr. Shipley was born at Barnesville sixty-six years ago, and made his home in this vicinity until he moved to Harford county. He is survived by a widow and four children. One of his sons, Wallace Shipley, lives near Hyattsville, and is a builder and contractor.

Dr. J. P. Sellman, of Hyattsville, who has been engaged there as a practicing physician, has accepted a position offered him by Dr. S. R. Barr, of the Baltimore and Ohio relief department, as medical examiner at New Castle, Pa. He left Boyds last night for his new home. Dr. Sellman is a son of the Hon. John P. Sellman, of the last Maryland house of delegates.

Miss Lena Dalton, of Virginia, has returned from visiting friends near Washington Grove and will leave here soon for her home at Staunton.

COLORADO GREET'S MILES.

COLORADO SPRINGS, Aug. 14.—General Miles, on his way to the National G. A. R. Encampment, was given a reception here. Veterans cheered him as he passed. His next Democratic opponent, but he declined to say whether he would be a candidate before the next Democratic National Convention.

Burglar Left His Mark.
When R. E. Keister, of 1227 Thirtieth Street, northwest, arose this morning he discovered unmistakable evidence that some one had attempted to enter his home in the course of the night. There are blinds on the windows, and the would-be burglar had broken some of the slats, but had evidently been frightened off without effecting an entrance.

GERMAN NATIONAL DEBT
SHOWS BIG INCREASEBut Huge Expenditures for Army and
Navy Continue.

BERLIN, Aug. 14.—It is announced that the national debt of the German Empire at the end of the current financial year will be £150,000,000, which is a large increase over that of 1902. Within the past twenty years the debt has steadily increased. The imperial national debt, however, is only a small proportion of Germany's real indebtedness. The aggregate national debts of Prussia, Bavaria, Saxony and other states within the federal empire amount to the further sum of £600,000,000.

The financial condition of Germany compares unfavorably with that of any country with the exception of France, but, regardless of this fact, the next estimates will provide for a large expenditure for both the army and the navy.

PRESIDENT PARRY
SCORES LABOR UNIONS

CHAUTAUQUA, N. Y., Aug. 14.—D. M. Parry, president of the National Association of Manufacturers, yesterday spoke before the "mob conference" on "Mob Spirit in Organized Labor." He said, in part: "In this country in the last year there have been many mobs of different kinds, but to my mind the most dangerous of them all is the mob of organized labor. No man, I take it can object to any kind of an association, labor or otherwise, which is organized for lawful and beneficent purposes, but organized labor, as it is conducted today, stands convicted by its own leaders as a lawless organization."

CHILE'S CABINET RESIGNS.

SANTIAGO DE CHILE, Aug. 14.—Owing to a political crisis, the ministry has resigned. Important political changes are expected. The Moderate Liberals will probably join the Liberal alliance, leaving the Balmacedists and Conservatives to form a new ministry.

NEW CRISIS IN SERBIA.

LONDON, Aug. 14.—A dispatch from Vienna says the entire Serbian ministry has resigned in consequence of the differences in the personal relations between the army officers who participated in the assassination of King Alexander and Queen Draga, and those who took no part in the murders.

MEDICAL.

Sufferings Relieved
AND
AILING ONES
Restored to Perfect Health
BY
DR. YOUNG

Where the poor are treated with as great consideration, care, and attention as the wealthiest of patients.

THE CENTAUR COMPANY, 37 NASSAU STREET, NEW YORK CITY.

MALARIA

Germ Infected Air.

Malaria is not confined exclusively to the swamps and marshy regions of the country, but wherever there is bad air this insidious foe to health is found. Poisonous vapors and gases from sewers, and the musty air of damp cellars are laden with the germs of this miserable disease, which are breathed into the lungs and taken up by the blood and transmitted to every part of the body. Then you begin to feel out of sorts without ever suspecting the cause. No energy or appetite, dull headaches, sleepy and tired and completely fagged out from the slightest exertion, are some of the deplorable effects of this enfeebling malady. As the disease progresses and the blood becomes more deeply poisoned, boils and abscesses and dark or yellow spots appear upon the skin. When the poison is left to ferment and the microbes and germs to multiply in the blood, liver and kidney troubles and other serious complications often arise. As Malaria begins and develops in the blood, the treatment to be effective must begin there too. S. S. S. destroys the germs and poisons and purifies the polluted blood, and under its tonic effect the debilitated constitution rapidly recuperates and the system is soon clear of all signs of this depressing disease. S. S. S. is a guaranteed purely vegetable remedy, mild, pleasant and harmless. Write us if you want medical advice or any special information about your case. This will cost you nothing.
